

Advance Publicity for “Driving Iceland’s Ring Road”

Iceland’s Route 1, known as the Ring Road, circles the North Atlantic island nation and offers some of the best scenery in the world – beautiful blue fjords, snow-capped mountains and a variety of volcanic landforms. We will briefly look at the history and geography of Iceland and then experience an epic week-long drive around the Ring Road with lots of spectacular photos and interesting stories!

Richard Jordan is a former President of the Etobicoke Historical Society and a former **Toronto Star** local history columnist. His feature articles on historical subjects have also appeared in the **Saturday Star** and the **Sunday Star**. A veteran traveler, he has visited many corners of the world and is happy to share his interesting stories and spectacular photography.

The photo below shows the road running by a fjord, a volcanic mountain to the left and some summer snow on the highlands in the distance. Every day in Iceland is spectacular and you can see a lot of Iceland by driving the famous Ring Road.
