

## Advance Publicity for “Adventures in Italy”

Italy is a tourist magnet. It has some of the best-preserved ruins of the ancient Roman world, the finest Renaissance art and architecture and spectacular natural scenery, not to mention irresistible food! In this lively presentation we’ll get off the beaten track exploring the canals of Venice from a gondola, and walking the “Path of the Gods” on the Amalfi coast. But we’ll also climb the Leaning Tower of Pisa, see the magnificent art of Florence, enter the Blue Grotto on the Isle of Capri and explore the ruins of Pompeii, the Coliseum in Rome and the Sistine Chapel.

Richard Jordan is a former President of the Etobicoke Historical Society and a former **Toronto Star** local history columnist. His feature articles on historical subjects have also appeared in the **Saturday Star** and the **Sunday Star**.

The photos below show some of our Adventures in Italy – clockwise from top left: Richard and Maureen on the Amalfi coast, Michelangelo’s David, wall paintings in Pompeii, the Leaning Tower of Pisa, a Venice Gondolier, Gelato and Seafood Risotto. There are lots of fascinating stories and great pictures along with entertaining personal insights.
