

## Advance Publicity for “Adventures in Spain”

Spain is a vibrant, modern country with a complex and fascinating past. The Spanish culture has Roman roots, exotic Moorish influences and a difficult past that included the Inquisition, multiple wars and the conquest of the New World. In this fascinating presentation, we’ll get off the beaten track and explore the palaces of the Alhambra by moonlight, see the tomb of Christopher Columbus, enter a massive mosque that became a place of Christian worship and explore the modernist masterpiece of architect Antoni Gaudi, La Sagrada Familia in Barcelona.

Richard Jordan is a former President of the Etobicoke Historical Society and a former **Toronto Star** local history columnist. His feature articles on historical subjects have also appeared in the **Saturday Star** and the **Sunday Star**.

The photos below show some of our Adventures in Spain –clockwise from top left: Richard and Maureen in Granada at sunset, Gaudi’s modernist masterpiece in Barcelona – La Sagrada Familia, delicious Spanish cuisine, some wild Flamenco dancing and a colourful Spanish market. There are lots of fascinating stories and great pictures along with entertaining personal insights.
